
MW 2022 ADVENTURE SUMMER PROGRAM

Camp 1: July 4th – July 15th

Pre-schoolers:

Engineering-----

Have you ever wondered what the tallest building would be?

What materials are used to build it? Have you ever wondered how a bridge moves up and down? Have you wondered how a dam built by a beaver doesn't fall over? Come and join us for a camp focused on structures from around the globe. You will be provided materials to build your own great structures.

You will get to create structures, bridges and even tunnels. The highlights of the camp will be making catapult, marshmallow structures, pull back car, Lego structures, beaver dam, bridges and building pulley!!

Toddlers:

Nature-----

Nature has so much to offer! Whether it's the fresh air, the beautiful views, or an abundance of wildlife—the great outdoors is the most entertaining place of all for our tiny tots! **Nature Summer Camp Theme Activities** will get your child to enjoy natural materials and the great outdoors in the summer. With all the time kids have this summer, they'll need to get plenty of exercise and vitamin D from sunshine. The children will make: bird feeder, bird nest, explore natural clay, nature wishing bottles, nature magic wands and loads of fun!

MW 2022 ADVENTURE SUMMER PROGRAM

Camp 2: July 18th - July 29th

Pre-schoolers:

Mad Science and Volcano! -----

What science camp would be complete without fizzing and bubbling chemical reactions? Investigate what happens when two common household items are combined. The children will get hands on and explore different **chemical reactions** and observe them in several different ways!

Volcanoes are fascinating and scary. They can spew out hot toxic gases, ash, magma and even fiery rocks! Kids always seem to get excited with things that explode so they may really enjoy learning about volcanoes in a fun science unit study format.

Toddlers:

Art exploration-----

Young children benefit from discovering art by doing and exploring an array of art materials. They are naturally curious and love to experiment with colors, textures, and art tools!! This will be a fun camp for the little children who love arts and crafts, experimenting with different color and techniques, painting with paintbrushes, sponges and sometimes fingers!

MW 2022 ADVENTURE SUMMER PROGRAM

Camp 3: August 1st – August 12th

Preschoolers:

Jurassic park -----

During the Dinosaur Discovery camp our enthusiastic learners will dive into a prehistoric world?!

Young children are the best scientists. Their endless curiosity is refreshing and allows them to question, challenge, and observe how the world works. Therefore, because our little ones are budding scientists, dinosaurs remain one of the most fascinating themes in a preschool classroom. Since dinosaurs are no longer alive, there is a sense of wonderment and interest in these mega-sized creatures.

Toddlers:

Under the sea!! Animals-----

What better way to get some learning and fun in during the summer than to study the ocean animals!! The classrooms will be transformed into an underwater playground. The children will study a different sea life animal every day and making a corresponding craft or art project. It will be all about whales, sharks, and rainbow fish, crabs, sea horses, star fish, octopus, walrus, and jelly fish.

MW 2022 ADVENTURE SUMMER PROGRAM

Camp 4: August 15st – August 26th

Preschoolers:

Artists (art and instruments) -----

The art camp offers the children fun week full of imagination, creativity, and hands on experience to create their own masterpieces based on the work of famous artists.

Campers get to explore all kinds of art and paint like real artists for an unforgettable learning experience!

Music provides cognitive benefits that support children's early development. Providing a musically rich environment for young children is so important for their development. The children will make their own instruments and the hand-crafted instruments are perfect for encouraging interaction with music, and they are fun to make too!

Toddlers:

Instruments-----

A child's active engagement in music can have many positive effects, including: 1 Perceptual, language and literacy skills 2 Numeracy 3 Intellectual development 4 Attention and concentration 5 Physical development and health. Music increases toddler's sensory development. Just as taste, textures and colours aid a child's sensory development will make some instrument crafts for to help them learn about the beautiful famous term 'music'!!

MW 2022 ADVENTURE SUMMER PROGRAM

MW Summer Program	Camp Hour 9:00 – 16:00	Before Care 7:00 – 9:00	After Care* 16:00 – 18:00
Toddler Camp (age 1.5 – 2.5)	\$1450/Month	\$70	\$100
Pre-school Camp (age 2.5 – 8) fee per camp (Two weeks)	\$650 / per camp	\$70	\$100
Lunch & Snacks	Included		
Field Trips	To be announced with extra admission and transportation fee		

- **Camp 1: July 4th – July 15th**
- **Camp 2: July 18th - July 29th**
- **Camp 3: August 1st – August 12th**
- **Camp 4: August 15st – August 26th**

- All program costs include snacks and lunch, No Outside food is allowed
- Fully supervised by our qualified staff, your child's safety is our top priority.
- Camps will be led by our Montessori Trained and RECE's Teachers
- All payment of fees due upon registration.
- No cancellation or refund available after registration.
- *Before care will be free of charge for those that register in After care
- Please contact nehav@montessoriworks.ca with any questions or concerns.

Appendix B: List of Reportable Diseases

Acquired immunodeficiency syndrome (AIDS)	Chancroid	Chlamydia trachomatis infections	Creutzfeldt-Jakob disease, all types
Cytomegalovirus infection, congenital	Encephalitis	Gonorrhea	Hemorrhagic fevers
Hepatitis B	Hepatitis C	Influenza	Legionellosis
Leprosy	Meningitis, acute	Ophthalmia neonatorum	Personal service settings
Respiratory infections, including institutional outbreaks	Severe acute respiratory syndrome (SARS)	Streptococcal infections	Syphilis
Tuberculosis	Covid-19		

Appendix C – MWS Parent/Guardian Agreement

Under Provincial direction, MWS will operate following strict health and safety protocols to prevent the spread of COVID-19 and to ensure the safety of childcare staff, children and their families.

What is COVID-19?

COVID-19 is a new strain of coronavirus that has not been previously seen in humans. The virus can cause symptoms like the common cold but can advance, in some cases, to severe respiratory illness or even death. COVID-19 can be spread from person to person, usually after close contact with someone infected with the virus.

Health and Illness Protocol for COVID-19

Children who are ill should not attend the MWS.

To manage the risk of spreading illness within the MWS, Peel Public Health has provided direction on cleaning/sanitation protocols and personal health care practices including frequent hand washing. Peel Public Health also requires daily active screening of all individuals arriving at the MWS.

ALL CHILDREN AND PARENTS/GUARDIANS must be screened **DAILY UPON ARRIVAL** at the MWS, which includes temperature checks. In addition to daily active screening, all children will be monitored throughout the day for emerging signs or symptoms of illness.

As a Parent/Guardian, you can prevent the spread of illness by keeping your child(ren) home from the program if you or your child(ren) experience **any** of the following signs or symptoms:

- A temperature above 37.8 degrees Celsius (100 degrees Fahrenheit)
- New or worsening cough or shortness of breath
- Lethargy (lack of energy)
- **Any** of the following symptoms (This list will be updated based on most up to date Public Health guideline):
 - Difficulty swallowing
 - Pink eye
 - Chills
 - Rash (in children)
 - Headaches
 - Unexplained fatigue/malaise/muscle aches
 - Abdominal pain
 - Diarrhea
 - Nausea/vomiting
 - Decrease or loss of sense of taste or smell
 - Severe Cold and cough

MONTESSORIWORKS

If your child(ren) experiences **any** of the signs or symptoms listed above while at the MWS, staff will contact you or one of your emergency contacts to pick up your child(ren) **immediately**. While your child(ren) waits for you or your designate to arrive, s/he will be separated from the other children.

To protect the health of all individuals at the MWS, staff will support the arrival and pick up routine for families. Upon arrival, once a child(ren) has completed active screening and been deemed able to enter the center, staff will escort the child(ren) to the appropriate program room. Parents/guardians are discouraged from entering the center. Pick-up and drop-off of child(ren) will occur outside the childcare setting unless it is determined that there is a need for a parent/guardian to enter the setting.

As a Parent/Guardian responsible for my child(ren)'s childcare placement, I agree to the following:

- I have read and understood the above information.
- I understand the risk of illness associated with placing my child(ren) in childcare services; I agree to all screening requirements and to accurately respond to all screening questions, including the reporting of temperatures daily for all persons screened.
- Misrepresentation on any screening questions, including temperatures or masking fevers with medication could result in the termination of my childcare placement.
- I will not administer any medication to my child that may mask the symptoms of illness, such as Tylenol or Advil, prior to dropping my child off at the MWS
- I agree to exclude **all** of my children from childcare **immediately** upon observing **any** of the above signs or symptoms of illness in any family member until medically deemed able to return to care; and
- I consent to provide copies of any of my child(ren)'s COVID-19 test results to the

MWS
